

FINE ART PRINTS INSTALLATION INSTRUCTIONS

TOOLS:
• screwdriver (phillips)

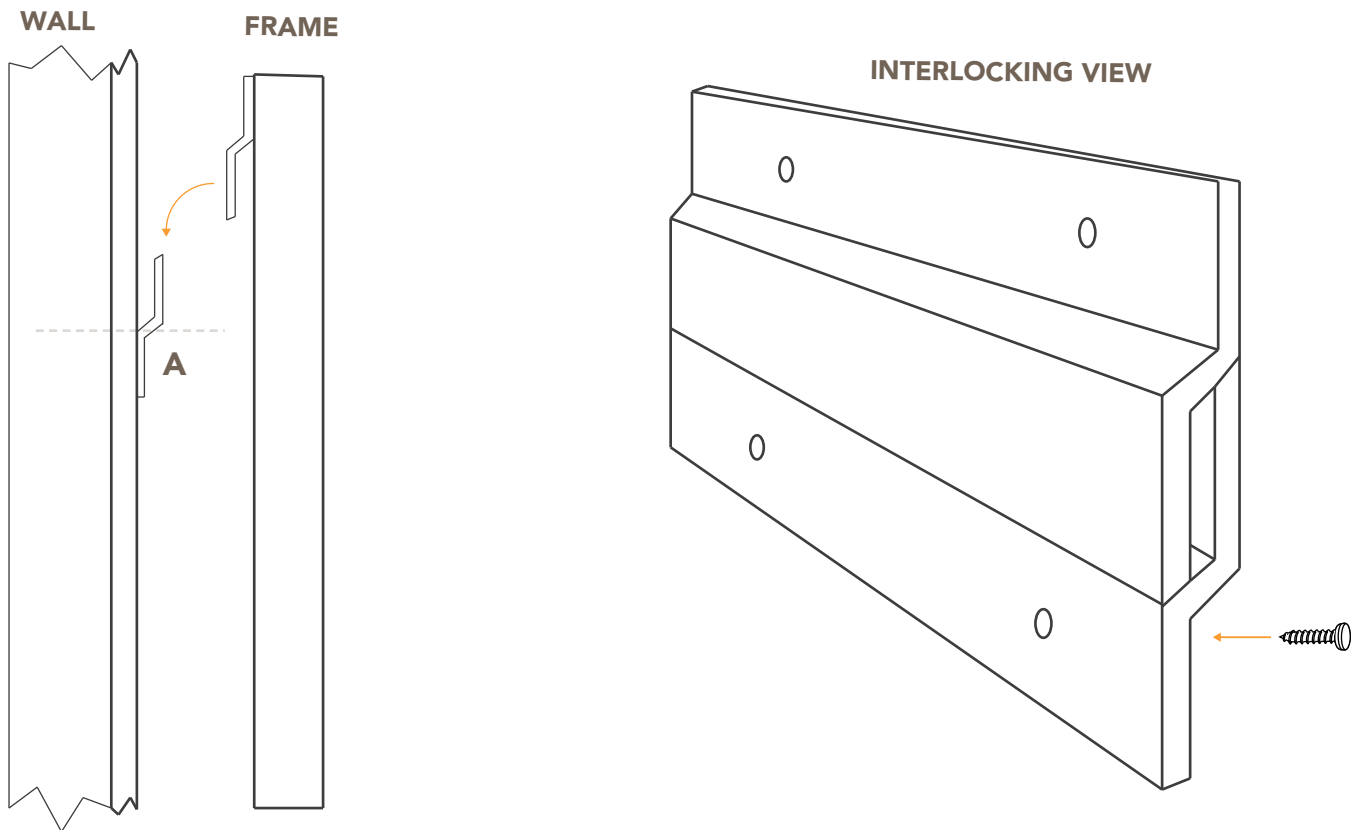

OrangePiel uses Hangman products to hang your fine art prints. The "Z" is perfect to install your custom fine art print level and firm upon your wall.

STEP ONE

DECIDE WHERE TO HANG. Locate where you want to install your fine art print. It should be fine.

STEP TWO

SECURE "Z" PLATE TO WALL. Using a level, secure the free "Z" bracket so that the crease (**A**) of the bracket is at the height you want to install your fine art print. Place the "Z" in the center of where you will be hanging the print.

STEP THREE

HANG FINE ART PRINT. Simply hook the "Z" bracket from the fine art print over the "Z" bracket on the wall.

STEP FOUR

ENJOY. Sit back and enjoy the fruits of your labor.
